EXPLANATORY STATEMENT

GENERAL

The Department of Agriculture is charged with the responsibility of carrying on agricultural activities and programs concerned with food and fiber production, processing, and distribution in the United States and its possessions, and the relationship of such activities and programs to those of other countries. It is also the medium through which the Nation has organized its agricultural resources for the successful conduct of the war.

It performs functions relating to agricultural adjustment, conservation, marketing, credit, regulatory work, research, and education. It works to eradicate and control insects and diseases affecting plants and animals. It administers regulatory laws enacted to protect food and fiber producers, processors, and consumers. It promotes the proper use of soil and forest resources and administers a program for rural rehabilitation and the Food-for-Freedom campaign.

In order to increase to the fullest possible extent the contribution of the Department to the war effort, a realignment of functions was effected in February 1942, whereby the activities and programs of 19 line agencies that previously reported directly to the Secretary were grouped under the direction of 8 administrators who were made members of the Agricultural War Board. This centralization of responsibility will enable the Department to concentrate its efforts upon farm production and other vital wartime programs.

Another material change in the 1944 estimate consists of providing funds for the Offices of the Secretary, Solicitor, and Information, and for the library and Bureau of Agricultural Economics principally through direct appropriations, thus avoiding substantial transfers from other appropriations.

BUDGET ESTIMATES FOR 1944

As compared with the 1943 appropriations, the Department of Agriculture budget estimates for 1944, exclusive of trust accounts and reappropriations, show an apparent increase of approximately 21 percent, but removing from consideration (a) the appropriation for parity payments to carry out the contract authorization contained in the 1943 Appropriation Act, and (b) the emergency rubber project (a special war activity), the amount of funds directly provided for in the 1944 estimates is nearly 8 percent less than the amount available for the fiscal year 1943. The total of reappropriated balances has been reduced about 59 percent for 1944 under 1943. Generally, the availability of funds for each of the functions of the Department for 1944 is less than for 1943, with the exception of grants to States and Territories, which show an increase.

The reorganization of the Department to be effected under Executive Order 9280, dated December 5, 1942, is not reflected in the 1944 Budget. For the purpose of discussion, however, the 1944 estimates are considered under the following 11 classifications:

- A. Departmental administration and service.
- B. Soil and forest cooperation.
- C. Agricultural research.
- D. Regulatory activities.
- E. Plant and animal insect and disease control.
- F. Grants to States and Territories.
- G. Protection and management of Federal lands.
- H. Agricultural conservation and adjustment payments.

- I. Agricultural credit.
- J. Marketing and diversion.
- K. Special war projects.

A. DEPARTMENTAL ADMINISTRATION AND SERVICE

Included under this functional heading are the Offices of the Secretary, Solicitor, Information, and Foreign Agricultural Relations, and the Department library. Except for a working capital fund provided for under the Office of the Secretary, the amount of funds on an availability basis for 1944 has been decreased more than 5 percent from 1943. The apparent increase in direct appropriations is considerably more than offset by the reduction in appropriations from which funds were formerly transferred.

B. SOIL AND FOREST COOPERATION

The appropriation items covered under this heading consist of the Soil Conservation Service activities, private forestry cooperation, and cooperative farm forestry. The practical application of improved practices of farm and wood-lot management so as to prevent soil erosion, increase soil fertility, provide for better land use, and increase farm production constitute the chief objectives of this extension work. The work of the Soil Conservation Service will include technical, material, and equipment assistance to a possible 23 percent more soil-conservation districts than were organized and in operation in the fiscal year 1943. Appropriation estimates for 1944 for these activities have been decreased approximately 1 percent as compared with 1943.

C. AGRICULTURAL RESEARCH

Agricultural research work involves 9 appropriation and 25 subappropriation items. A decrease of approximately 2 percent in the amount of funds to be made available is contemplated. Much of the research work is now directed toward the solution of problems vital to the war effort or vital to civilian and industrial welfare during wartime. A direct appropriation is proposed for the 4 great regional laboratories, previously provided for by transfers from the appropriation "Conservation and use of agricultural land resources."

D. REGULATORY ACTIVITIES

Under this classification are included 19 subappropriation items of the Bureau of Animal Industry, Bureau of Entomology and Plant Quarantine, and the Agricultural Marketing Administration. More than 50 regulatory laws enacted for the protection of producers, consumers, and dealers of food and fiber products are administered. Some of the activities are wholly or partially self-supporting. An increase of nearly 5 percent is recommended for meat inspection, the principal activity both from the standpoint of importance and cost. This increase is caused by greater demands for inspection service resulting largely from the new authority of the Bureau of Animal Industry to inspect meat packing establishments engaged in intrastate commerce. Funds for practically all other regulatory activities have been curtailed by about 5 percent.

E. PLANT AND ANIMAL INSECT AND DISEASE CONTROL

The control and treatment of diseases and parasites of domestic animals under the Bureau of Animal Industry, and the eradication and control of insects which are injurious to agricultural and forest crops and products under the Bureau of Entomology and Plant Quarantine and the

Forest Service, constitute the activities under this classification. To offset reappropriations made for this control work for 1943, direct appropriations for 1944 show an increase, but the total amount recommended for 1944 is approximately 1.3 percent less than the amount available for 1943.

F. GRANTS TO STATES AND TERRITORIES

Grants to States and Territories are authorized by law for the purpose of financing cooperative agricultural research and extension activities. The 1944 appropriation estimates indicate an increase of about one-half of 1 percent over 1943, the increase being confined to grants to Alaska, Hawaii, and Puerto Rico.

G. PROTECTION AND MANAGEMENT OF FEDERAL LANDS

The Federal lands administered under this classification include 160 national forests, containing over 176,000,000 acres, and 147 land utilization projects, involving nearly 10,000,000 acres of submarginal land. Administrative expenses are estimated to be approximately the same in 1944 as in 1943. Some decreases in normal peacetime activities have been offset by the assumption of increased duties as a result of wartime requirements, such as increased timber sales. No further acquisition of land by purchase is contemplated for the duration of the war.

H. AGRICULTURAL CONSERVATION AND ADJUSTMENT PAYMENTS

The 1944 appropriation estimate for parity payments indicates an increase of \$193,623,000, since there was no appropriation for 1943. The estimate for 1944 is to provide for payments on 1942 crops, while the 1941 crop payments were provided for by a 1942 appropriation of \$212,000,000.

An increase of nearly 35 percent for increased payments to sugar producers under the Sugar Act of 1937 is required as a result of Public Law 386, enacted on December 26, 1941. In the past, excise taxes on sugar have exceeded expenditures, but for 1944 it is estimated that expenditures will exceed revenues by about \$900,000.

A decrease of \$50,000,000 for "Conservation and use of agricultural land resources," from which fund acreage adjustment payments and payments for carrying out soil-building practices are made to farmers, will not result in an appreciable reduction in the rates of farmers' payments due to less participation in the program during the crop year 1942 than was originally estimated.

I. AGRICULTURAL CREDIT

Five agencies are included within this classification which are engaged in the extension of agricultural credit to farmers and their organizations, in addition to the

Federal Crop Insurance Corporation, which provides farmers with insurance on cotton and wheat. Through the Farm Credit Administration and the Federal Farm Mortgage Corporation short, intermediate, and long-term credit is provided, this being augmented by the lending activities of the Farm Security Administration in the case of those farmers in the lower-income groups who cannot obtain credit from other lending agencies. As a result of the war the Commodity Credit Corporation's loan and purchase programs have been vastly expanded to stimulate production, stabilize prices and provide for the importation of essential agricultural commodities. In the case of the Rural Electrification Administration, new construction is restricted to that having a direct relationship to war production.

Approximately 70 percent of the activities of these six agencies is financed from Government corporation funds, and the remainder from appropriated funds. The amount of funds recommended under these two categories for the fiscal year 1944 is approximately the same as in 1943.

J. MARKETING AND DIVERSION

Market news service, included under this classification, provides daily reporting of market information from terminal markets, shipping points, and producing sections to aid farmers in marketing their products to the best advantage. A reduction of 5 percent in the availability of funds for 1944 is contemplated. Other activities provide for encouraging the disposal, exportation, and domestic consumption of agricultural commodities, and the reestablishment of farmers' purchasing power. These objectives are accomplished through the diversion of agricultural products to new uses and to relief programs, including the school milk and school lunch programs, by means of export and domestic subsidies. Funds are provided by a permanent appropriation based upon 30 percent of customs receipts, and the reappropriation of prior year balances, supplemented in 1940, 1941, and 1942 by direct appropriations. Continuance of the activity is proposed during 1944 to the extent of 30 percent of customs receipts, plus the reappropriation of 1943 balances, which, compared with obligations for 1943, represents a decrease of approximately one-fifth.

K. SPECIAL WAR PROJECTS

To make available a source of crude rubber for emergency and war uses, the Department of Agriculture has undertaken, as a war project, an extensive program of cultivation and production of guayule. Funds proposed for 1944 for this project are approximately double the amount available in 1943. The program for 1943 called for planting 88,000 acres of guayule, and for 1944 it is estimated that an additional 176,000 acres will be planted.

washing towels, repairs and alterations, and other miscellaneous supplies and expenses not otherwise provided for and necessary for the practical and efficient work of the Department, which are authorized by such officer as the Secretary may designate, \$1,573,184, together with such amounts from other appropriations or authorizations as are provided in the schedules in the Budget for the fiscal year [1943] 1944 for such services and expenses, which several amounts or portions thereof, as may be determined by the Secretary, not exceeding a total of [\$1,009,488] \$75,476, shall be transferred to and made a part of this appropriation; and there may be expended for personal services in the District of Columbia in said Office of the Secretary not to exceed the total amount provided in the Budget schedules for such purpose under this appropriation; Provided, however, That if the total amounts of such appropriations or authorizations for

the fiscal year [1943] 1944 shall at any time exceed or fall below the amounts estimated, respectively, therefor in the Budget for [1943] 1944, the amounts transferred or to be transferred therefrom to this appropriation and the amount which may be expended for personal services in the District of Columbia shall be increased or decreased in such amounts as the Director of the Bureau of the Budget, after a hearing thereon with representatives of the Department of Agriculture, hereafter in this Act referred to as the Department, shall determine are appropriate to the requirements as changed by such reductions or increases in such appropriations or authorizations: *Provided further*, That the Secretary [of Agriculture] is authorized to contract for stenographic reporting services, and the appropriations made in this Act shall be available for such purposes: *Provided further*, That the Secretary of Agriculture is authorized, and to expend from appropriations available for the purchase of lands not to exceed \$1 for each option to purchase any particular tract or tracts of land: *Provided further*, That not to exceed \$25,000 of the appropriations available for salaries and expenses of officers and employees of the Department [of Agriculture] permanently stationed in foreign countries may be used for payment of allowances for living quarters, including heat, fuel, and light, as authorized by the Act approved June 26, 1930 (5 U. S. C. 118a): *Provided further*, That with the approval of the Secretary [of Agriculture], employees of the Department [of Agriculture] stationed abroad may enter into leases for official quarters, for periods not exceeding one year, and may pay rent, telephone, subscriptions to publications, and other charges incident to the conduct of their offices and the discharge of their duties, in advance, in any foreign country where custom or practice requires payment in advance: *Provided further*, That no part of the funds appropriated by this Act shall be used for the payment of any officer or employee of the Department [of Agriculture] who, as such officer or employee, or on behalf of the Department or any division, commission, or bureau thereof, issues, or causes to be issued, any prediction, oral or written, or forecast, except as to damage threatened or caused by insects and pests, with respect to future prices of cotton or the trend of same: *Provided further*, That no part of the funds appropriated by this Act shall be used for laboratory investigations to determine the possibly harmful effects on human beings of spray insecticides on fruits and vegetables: *Provided further*, That the Secretary of Agriculture is authorized to make microfilm or other photographic reproductions of books and other library materials in the Department of Agriculture and sell such reproductions at such prices (not less than estimated cost of furnishing same) as he may determine, the money received from such sales to be deposited in the Treasury to the credit of the appropriation charged with the cost of making such reproductions: *Provided further*, That, except to provide materials required in or incident to research or experimental work where no suitable domestic product is available, no part of the funds appropriated by this Act shall be expended in the purchase of twine manufactured from commodities or materials produced outside of the United States (5 U. S. C. 511-517 (secs. 511-512, establishing Department of Agriculture, apply to all appropriation items of the Department which are not based upon specific legislative authority either incorporated in the language of the item or cited immediately thereunder), 520a, 542; 56 Stat. 664-665).

WORKING CAPITAL FUND

Working Capital Fund—

For the establishment of a working capital fund, \$400,000, without fiscal year limitation, for the payment of salaries and other expenses necessary to the maintenance and operation of (1) central duplicating, photographic, and tabulating services, (2) a central motor-transport service for the maintenance, repair, and operation of motor-transport vehicles and other equipment, (3) a central supply service for the purchase, storage, handling, issuance, packing, or shipping of stationery, supplies, equipment, blank forms, and miscellaneous materials, for which stocks thereof, not to exceed \$200,000 in value (except for the value of blank forms) at the close of any fiscal year, may be maintained sufficient to meet, in whole or in part, requirements of the bureaus and offices of the Department in the city of Washington and elsewhere, and (4) such other services as the Secretary, with the approval of the Director of the Bureau of the Budget, determines may be performed more advantageously as central services; said fund to be reimbursed from applicable funds of bureaus, offices, and agencies for which services are performed on the basis of rates which shall include estimated or actual charges for personal services, materials, equipment (including maintenance, repairs, and depreciation) and other expenses: Provided, That such central services shall, to the fullest extent practicable, be used to make unnecessary the maintenance of separate like services in the bureaus, offices, and agencies of the Department: Provided further, That a separate schedule of expenditures and reimbursements, and a statement of the current assets and liabilities of the working capital fund as of the close of the last completed fiscal year, shall be included in the annual Budget.

Miscellaneous Expenses, Department of Agriculture—

【For stationery, supplies, materials, and equipment, freight, express, and drayage charges, advertising, communication service, postage, washing towels, repairs, and alterations; for the maintenance, repair, and operation of one motorcycle and not to exceed three motor-propelled passenger-carrying vehicles (including one for the Secretary of Agriculture, one for general utility needs of the entire Department, and one for the Forest Service) and purchase of one motor-propelled passenger-carrying vehicle at not to exceed \$1,500, including the exchange value of one such vehicle, for official purposes only; for official travel expenses, including examination of estimates for appropriations in the field for any bureau, office, or service of the Department; and for other miscellaneous supplies and expenses not otherwise provided for and necessary for the practical and efficient work of the Department, which are authorized by such officer as the Secretary may designate, \$98,341, together with such amounts from other appropriations or authorizations as are provided in the schedules in the Budget for the fiscal year 1943 for such expenses, which several amounts or portions thereof, as may be determined by the Secretary, not exceeding a total of \$131,605, shall be transferred to and made a part of this appropriation: *Provided, however,* That if the total amounts of such appropriations or authorizations for the fiscal year 1943 shall at any time exceed or fall below the amounts estimated, respectively, therefor in the Budget for 1943, the amounts transferred or to be transferred therefrom to this appropriation shall be increased or decreased in such amounts as the Director of the Bureau of the Budget, after a hearing thereon with representatives of the Department, shall determine are appropriate to the requirements as changed by such reductions or increases in such appropriations or authorizations: *Provided further,* That this appropriation shall be available for the payment of salaries of employees engaged in the maintenance, repair, and operation of motor-transport vehicles, and that this appropriation shall be reimbursed from the appropriation made for any bureau or office for which such service is performed, in accordance with the provisions of the Act of May 11, 1922 (5 U. S. C. 543): *Provided further,* That the Secretary of Agriculture, during the fiscal year for which this appropriation is made, may maintain stocks of stationery, supplies, equipment, and miscellaneous materials sufficient to meet, in whole or in part, requirements of the bureaus and

offices of the Department in the city of Washington and elsewhere, but not to exceed in the aggregate \$200,000 in value at the close of the fiscal year, and the appropriations of such bureaus, offices, and agencies available for the purchase of stationery, supplies, equipment, and miscellaneous materials shall be available to reimburse the appropriation for miscellaneous expenses current at the time supplies are allotted, assigned, or issued, or when payment is received; for transfer for the purchase of inventory; and for transfer pursuant to the provisions of section 601 of the Act approved June 30, 1932 (31 U. S. C. 686): *Provided further,* That the appropriations made hereunder shall be available for the payment of salaries and expenses for purchasing, storing, handling, packing, or shipping supplies and blank forms, and there shall be charged proportionately as a part of the cost of supplies issued an amount to cover such salaries and expenses, and in the case of blank forms and supplies not purchased from this appropriation an amount to cover such salaries and expenses shall be charged proportionately to the proper appropriation: *Provided further,* That the facilities of the central storehouse of the Department shall to the fullest extent practicable be used to make unnecessary the maintenance of separate bureau storehouse activities in the Department: *Provided further,* That a separate schedule of expenditures, transfers of funds, or other transactions hereunder shall be included in the annual Budget: *Provided further,* That, except to provide materials required in or incident to research or experimental work where no suitable domestic product is available, no part of the funds appropriated by this Act shall be expended in the purchase of twine manufactured from commodities or materials produced outside of the United States】 (56 Stat. 665-667).

NOTE.—Appropriation under the above head has been transferred to and consolidated under "Salaries and expenses, Office of Secretary of Agriculture."

Cooperative Agricultural Extension Work—

For the purpose of paying the expenses of cooperative agricultural extension work and the necessary printing and distributing of information in connection with same, the Act of May 8, 1914 (7 U. S. C. 341–348), permanently appropriated \$480,000 for each year, \$10,000 of which is paid annually to each State which has by action of its legislature assented to the provisions of the Act. It also appropriated an additional sum of \$600,000 for the fiscal year following that in which the foregoing appropriation first became available, and for each year thereafter for seven a sum exceeding by \$500,000 the sum appropriated for each preceding year, and for each year thereafter there is permanently appropriated the sum of \$4,100,000 in addition to the sum of \$480,000. The additional sums are allotted annually to each State by the Secretary and paid in the proportion which the rural population of each State bears to the rural population of all the States as determined by the next preceding Federal census, but no payment out of the additional appropriations can be made in any year to any State until an equal sum has been appropriated for that year by the legislature of such State, or provided by State, county, college, local authority, or individual contributions from within the State, for the maintenance of cooperative agricultural extension work. On May 16, 1928 (7 U. S. C. 386–386b), this appropriation was amended to include a permanent allotment to the Territory of Hawaii of \$10,000 plus an additional sum of \$12,935.43, subject to the same terms and conditions as the original act. The permanent annual appropriation was thereby increased to \$4,602,935.43. Under the 1930 census the amount of money available to Hawaii increased by \$3,160, thereby automatically raising the total amount available under the original Smith-Lever Act by this amount. Under the 1940 census the amount of money available to Hawaii decreased by \$4,701, thereby automatically decreasing the total amount available under the original Smith-Lever Act by this amount. The Act of March 4, 1931 (7 U. S. C. 386d–386f) provides that the Smith-Lever Act and Acts supplementary thereto be increased without diminishing the amount now received by any State or other Territory, to carry out the provisions of this Act in the Territory of Puerto Rico and specifies that the appropriation for 1933 and subsequent years shall be \$50,000, this amount to be increased by \$10,000 annually, or such part thereof as may be necessary, until the total to which Puerto Rico is entitled under the provisions of this Act is reached. The maximum for Puerto Rico under the 1930 census (\$95,069) was reached during the fiscal year 1938. Under the 1940 census the amount of money available to Puerto Rico increased by \$8,246, thereby automatically increasing the total amount available under the original Smith-Lever Act by this amount. The changes occasioned by the 1940 census result in bringing the total permanent annual appropriation to \$4,704,710 (7 U. S. C. 341–348).

BUREAU OF ANIMAL INDUSTRY

SALARIES AND EXPENSES

Salaries and Expenses, Animal Industry, Agricultural Research Administration—

For the employment of persons and means in the District of Columbia and elsewhere for carrying out the provisions of the Act, as amended, establishing a Bureau of Animal Industry, and related Acts; and the Secretary [of Agriculture], upon application of any exporter, importer, packer, or owner of, or the agent thereof, or dealer in, livestock, hides, skins, meat, or other animal products, may in his discretion, make inspections and examinations at places other than the headquarters of inspectors for the convenience of said applicants and charge the applicants for the expenses of travel and subsistence incurred for such inspections and examinations, the funds derived from such charges to be deposited in the Treasury of the United States to the credit of the appropriation from which the expenses are paid; collect and disseminate information concerning livestock and animal products; prepare and disseminate reports on animal industry; purchase in the open market samples of all tuberculin, serums, antitoxins, or analogous products, of foreign or domestic manufacture, which are sold in the United States, for the detection, prevention, treatment, or cure of diseases of domestic animals, test the same, and disseminate the results of said tests in such manner as he may deem best, and purchase and destroy diseased or exposed animals, including poultry, or quarantine the same whenever in his judgment essential to prevent the spread of pleuropneumonia, tuberculosis, contagious poultry diseases, or other diseases of animals from one State to another, as follows (5 U. S. C. 511–512—establishing the Department of Agriculture; 7 U. S. C. 391—establishing Bureau of Animal Industry; 21 U. S. C. 111–128, 130—general legislation relating to the prevention and spread of contagion (the foregoing citations apply to all appropriation items under the bureau); 21 U. S. FOREST SERVICE

SALARIES AND EXPENSES

Salaries and Expenses, Forest Service—

For the employment of persons and means in the District of Columbia and elsewhere to enable the Secretary [of Agriculture] to experiment and to make and continue investigations and report on forestry, national forests, forest fires, and lumbering, but no part of this appropriation shall be used for any experiment or test made outside the jurisdiction of the United States; to advise the owners of woodlands as to the proper care of the same; to investigate and test American timber and timber trees and their uses, and methods for the preservative treatment of timber; to seek, through investigations and the planting of native and foreign species, suitable trees for the treeless regions; to erect necessary buildings: *Provided*, That the cost of any building purchased, erected, or as improved, exclusive of the cost of constructing a water-supply or sanitary system and of connecting the same with any such building, and exclusive of the cost of any tower upon which a lookout house may be erected, shall not exceed \$7,500, with the exception that any building erected, purchased, or acquired, the cost of which was \$7,500 or more, may be improved out of the appropriations made under this Act for the Forest Service by an amount not to exceed 2 per centum of the cost of such building as certified by the Secretary [of Agriculture]; to protect, administer, and improve the national forests, including tree planting and other measures to prevent erosion, drift, surface wash, soil waste, and the formation of floods, and to conserve water and including the payment of rewards under regulations of the Secretary [of Agriculture] for information leading to the arrest and conviction for violation of the laws and regulations relating to fires in or near national forests, or for the unlawful taking of, or injury to, Government property; to ascertain the natural conditions upon and utilize the national forests, to transport and care for fish and game supplied to stock the national forests or the waters therein; to collate, digest, report, and illustrate the results of experiments and investigations made by the Forest Service; to purchase lawbooks, reference and technical books, and technical journals for officers of the Forest Service stationed outside of Washington, and for medical supplies and services and other assistance necessary for the immediate relief of artisans, laborers, and other employees engaged in any hazardous work under the Forest Service: *Provided further*, That the appropriations for the work of the Forest Service shall be available for meeting the expenses of warehouse maintenance and the procurement, care, and handling of supplies, equipment, and materials stored therein for distribution to projects under the supervision of the Forest Service and for sale and distribution to other Government activities and to State and private agencies who cooperate with the Forest Service in fire control under terms of written cooperative agreements, the cost of such supplies, equipment, and materials, including the cost of supervision, transportation, warehousing, and handling, to be reimbursed to appropriations current at the time additional supplies and materials are procured for warehouse stocks: *Provided further*, That the appropriations for the work of the Forest Service available for the operation, repair, maintenance, and replacement of motor and other equipment may be reimbursed for use of such equipment on projects of the Forest Service chargeable to other appropriations, or on work of other Federal agencies, when requested by such agencies, reimbursement to be made from appropriations applicable to the work on which used at rental rates fixed by the Chief Forester based on the actual or estimated cost of operation, repair, maintenance, depreciation, and equipment management control, and credited to appropriations currently available at the time adjustment is effected: *Provided further*, That the Forest Service may rent equipment for

fire-control purposes to State, county, private, or other non-Federal agencies cooperating with the Forest Service in fire control under the terms of written cooperative agreements, the amount collected for such rental to be credited to appropriations currently available at the time payment is received, as follows (5 U. S. C. 511-512—establishing the Department of Agriculture, 524—establishing Bureau of Forestry (the foregoing citations apply to all appropriation items under the Service which are not based upon specific legislative authority either incorporated in the language of the item or cited immediately thereunder); 16 U. Special accounts:

Payments to States and Territories From the National Forests Fund—

Twenty-five percent of all money received from each forest reserve during any fiscal year is paid at the end thereof by the Secretary of the Treasury to the State or Territory in which the reserve is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which the forest reserve is situated. When any forest reserve is in more than one State or Territory, or county, the distributive share to each from the proceeds of the reserve is proportional to its area therein (16 U. S. C. 500).

Estimate 1944, \$1,670,043 Appropriated 1943, \$1,525,306
Revised 1943, \$1,670,043

11 Grants, subsidies, and contributions: Obligations—1944, \$1,670,043; 1943, \$1,670,043; 1942, \$1,532,968.

Payments to School Funds, Arizona and New Mexico, National Forests Fund—

At the close of each fiscal year there is paid by the Secretary of the Treasury to each of these two States, as income for its common-school fund, an amount equivalent to such proportion of the gross proceeds of all the national forests within the State as the area of lands granted to the State for school purposes within these forest reserves may bear to the total area of all national forests within these States (36 Stat. 561).

Roads and Trails for States, National Forests Fund—

An additional 10 percent of all moneys received from the national forests during each fiscal year is available at the end thereof, to be expended by the Secretary for the construction and maintenance of roads and trails within the national forests in the States from which such proceeds are derived (16 U. S. C. 501).

Cooperative Work, Forest Service—

All moneys received as contributions toward cooperative work in forest investigations, or the protection and improvement of the national forests, including deposits received from timber purchases to cover the cost to the United States of disposing of brush and other debris resulting from cutting operations in sales of national forest timber, are covered into the Treasury and constitute a special fund, which is appropriated and made available until expended, as the Secretary may direct, for the payment of the expenses of the investigations, protection or improvements by the Forest Service, and for refunds to the contributors of amounts paid in by them in excess of their share of the cost of the investigations, protection, or improvements (16 U. S. C. 498; 31 U. S. C. 725a).

EMERGENCY RUBBER PROJECT

Emergency Rubber Project, Department of Agriculture—

For an additional amount for the "Emergency rubber project", including the objects specified under this head in the Second Deficiency Appropriation Act, 1942, and in addition thereto the use of Government motor equipment for the transportation of laborers from points of assembly to the sites of the projects and return, fiscal year 1943, \$19,000,000: *Provided*, That the Secretary of Agriculture, in connection with the appropriations herein and heretofore made for such project, is authorized to plant, or contract for the planting of, not to exceed twenty-five thousand acres of guayule in areas in the Western Hemisphere in addition to the acreage permitted under the provisions of paragraph (1), section 1, of the Act of March 5, 1942 (Public Law 473).

For all expenses necessary to enable the Secretary to carry into effect the Act of March 5, 1942, as amended (56 Stat. 126-128, 796-797), including personal services in the District of Columbia and elsewhere; printing and binding without regard to section 11 of the Act of March 1, 1919 (44 U. S. C. 111); purchase of books of reference and periodicals; purchase of passenger-carrying vehicles; erection of necessary buildings; procurement of medical supplies or services for emergency use in the field; and the acceptance of donations of land and rubber-bearing plants, and furnishing to employees daily transportation between points of assembly and work projects, \$56,000,000: *Provided*, That any proceeds from the sales of guayule, rubber processed from guayule, or other rubber-bearing plants, or from other sales, rentals and fees resulting from operations under such Act of March 5, 1942, as amended, shall be covered into the Treasury as miscellaneous receipts (56 Stat. 126-128, 240, 596-597, 1001-1002).

AGRICULTURAL CONSERVATION AND ADJUSTMENT ADMINISTRATION

CONSERVATION AND USE OF AGRICULTURAL LAND RESOURCES, DEPARTMENT OF AGRICULTURE

Conservation and Use of Agricultural Land Resources—

To enable the Secretary [of Agriculture] to carry into effect the provisions of sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, approved February 29, 1936, as amended (16 U. S. C. 590g-590q), and the provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1281-1407) (except the making of payments pursuant to sections 303 and 381 and the provisions of titles IV and V), including the employment of persons and means in the District of Columbia and elsewhere; not to exceed \$50,000 for the preparation and display of exhibits, including such displays at State, interstate, and international fairs within the United States; purchase of lawbooks, books of reference, periodicals, newspapers, [\$450,000,000] \$400,000,000, to remain available until June 30, [1944] 1945, for compliances under said Act of February 29, 1936, as amended, pursuant to the provisions of the [1942] 1943 programs carried out during the period July 1, [1941] 1942, to December 31, [1942] 1943, inclusive: *Provided*, That no part of such amount shall be available for carrying out the provisions of section 202 (f) of the Agricultural Adjustment Act of 1938, and not to exceed \$4,000,000 shall be available under the provisions of section 202 (a) to 202 (e), inclusive, of said Act, including research on food products of farm commodities: *Provided further*, That no part of such amounts shall be available after June 30, [1943] 1944, for salaries and other administrative expenses except for payment of obligations therefor incurred prior to July 1, [1943] 1944: *Provided further*, That such amount shall be available for salaries and other administrative expenses in connection with the formulation and administration of the [1943] 1944 programs or plans now or hereafter authorized under section 7 or 8, or both, of said Act of February 29, 1936, or under said provisions of the Agricultural Adjustment Act of 1938: *Provided further*, That the Secretary [of Agriculture] may, in his discretion, from time to time transfer to the General Accounting Office such sums as may be necessary to pay administrative expenses of the General Accounting Office in auditing payments under this item: *Provided further*, That such amount shall be available for the purchase of seeds, fertilizers, lime, trees, or any other farming materials, or any soil terracing services, and making grants thereof to agricultural producers to aid them in carrying out farming practices approved by the Secretary [of Agriculture] in the [1942,] 1943, [and] 1944, and 1945 programs under said Act of February 29, 1936, as amended, and likewise the amount appropriated under this head for the fiscal year 1942 shall be available for such purchases for such grants in the 1941, 1942, and 1943 programs under such Act; for the reimbursement of any Federal, State, or local government agency for fertilizers, seeds, lime, trees, or other farming materials, or any soil terracing services, furnished by such agency; and for the payment of all expenses necessary in making such grants including all or part of the costs incident to the delivery thereof: *Provided further*, That beginning with the fiscal year 1942, each appropriation to enable the Secretary of Agriculture to carry into effect any program administered through the Agricultural Adjustment Administration may, in the discretion of the Secretary, be reimbursed out of the then current appropriation for the agency affected, for a fair share of the administrative expense, as estimated periodically or in advance by the Agricultural Adjustment Administration of maintaining registers of indebtedness and making, out of such Agricultural Adjustment Administration appropriation, set-offs under the order entered by the Secretary on May 8, 1937, as heretofore or hereafter amended, in favor of any other agency of the Government: *Provided further*, That notwithstanding any other provision

of law, persons who in [1942] 1943 carry out farming operations as tenants or sharecroppers on cropland owned by the United States Government and who comply with the terms and conditions of the [1942] 1943 agricultural conservation program, formulated pursuant to sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, shall be entitled to apply for and receive payments, or to retain payments heretofore made, for their participation in said program to the same extent as other producers (56 Stat. 691-692).

PARITY PAYMENTS

Parity Payments—

To enable the Secretary [of Agriculture] to make full parity payments [to producers of wheat, cotton, corn (in the commercial corn-producing area), rice, and tobacco pursuant to the provisions of section 303 of the Agricultural Adjustment Act of 1938, there are hereby reappropriated the unobligated balances of the appropriations made under this head by the Department of Agriculture Appropriation Acts for the fiscal years 1941 and 1942, to remain available until June 30, 1945, and the Secretary is authorized and directed to make such additional commitments or incur such additional obligations as may be necessary in order to provide for full parity payments for the crop year 1942: *Provided*, That of the amounts hereby made available] for the crop year 1942 pursuant to the authorization under this head in the Department of Agriculture Appropriation Act, 1943, \$193,623,000, to remain available until June 30, 1945, and to be merged with and made a part of the appropriation under this head in said Act, and the unobligated balance of appropriation so merged shall remain available until June 30, 1946, for administrative expenses (including expenses of county and local committees), and not to exceed \$5,000,000 of said unobligated balance may be expended for administrative expenses in the District of Columbia (including personal services) and [in the several States (exclusive of] elsewhere (excluding expenses of county and local committees), including such part of the total expenses of making acreage allotments, establishing normal yields, checking performance, and related activities in connection with wheat, cotton, corn, rice, and tobacco under the authorized farm program as the Secretary finds necessary to supplement the amount provided [for] in section 392 of the Agricultural Adjustment Act of 1938[, as].

The second proviso contained under this head in the Department of Agriculture Appropriation Act, 1943, is amended to read as follows: “*Provided further*, That such payments with respect to any such commodity shall be made upon the normal yield of the farm acreage allotment established for the commodity under the 1942 agricultural conservation program and shall be made with respect to a farm in full amount only in the event that the acreage planted to the commodity for harvest on the farm in [1943 is] 1942 was not in excess of the farm acreage allotment established for the commodity under [the agricultural conservation] said program, and, if such allotment has been exceeded, the parity payment with respect to the commodity shall be reduced by not more than 10 per

centum for each 1 per centum, or fraction thereof, by which the acreage planted to the commodity is in excess of such allotment.”

[The] To enable the Secretary to make parity payments to producers of wheat, cotton, corn (in the commercial corn-producing area), rice, and tobacco, pursuant to the provisions of section 303 of the Agricultural Adjustment Act of 1938, he is authorized and directed to make such commitments or incur such obligations as may be necessary in order to provide for full parity payments for each of the crop years 1943 and 1944: *Provided*, That such payments with respect to any such commodity for the crop year 1943 shall be made upon the normal yield of the farm acreage allotment established for such commodity under the 1943 agricultural conservation program and for the crop year 1944 on the normal yield of the farm acreage allotment established for the commodity under the 1944 agricultural conservation program: *Provided further*, That for each of the crop years 1943 and 1944 such payments with respect to any such commodity shall be made with respect to a farm in full amount only in the event that the acreage planted to the commodity for harvest on the farm in 1943 or 1944, as the case may be, is not in excess of the farm acreage allotment established for such commodity under the agricultural conservation program, and, if such allotment has been exceeded, the parity payment with respect to the commodity shall be reduced by not more than 10 per centum for each 1 per centum, or fraction thereof, by which the acreage planted to the commodity is in excess of such allotment, and the Secretary may also provide by regulations for similar [deductions] reductions for the crop years 1943 and 1944, respectively, for planting in excess of the acreage allotment for the commodity on other farms or for planting in excess of the acreage allotment or limit for any other commodity for which allotments or limits are established under the agricultural conservation program on the same or any other farm.

[If] For payments on the 1943 crop, if the sum of the prevailing basic loan rate (if marketing quotas for the commodity have been disapproved, such basic loan rate shall be the basic loan rate which would have prevailed except for such disapproval) or the average farm price, whichever is the higher, for the crop year [1942] 1943 and the applicable rate of the payments under the Soil Conservation and Domestic Allotment Act, for the purposes of the [1942] 1943 agricultural conservation [program] program, and the parity payments herein provided, exceed an amount sufficient to increase the farmers' returns to parity prices, parity payments shall be so adjusted as to provide a return to producers which is equal to but not greater than parity price; and for payments on the 1944 crop, if the sum of the prevailing basic loan rate (if marketing quotas for the commodity have been disapproved, such basic loan rate shall be the basic loan rate which would have prevailed except for such disapproval) or the average farm price, whichever is the higher, for the crop year 1944 and the applicable rate of the payments under the Soil Conservation and Domestic Allotment Act, for the purposes of the 1944 agricultural conservation program, and the parity payments herein provided exceed an amount sufficient to increase the farmers' returns to parity prices, parity payments shall be so adjusted as to provide a return to producers which is equal to but not greater than parity price (56 Stat. 693).

ADMINISTRATIVE EXPENSES, AGRICULTURAL ADJUSTMENT AGENCY

Administrative Expenses, Agricultural Adjustment Agency—

NOTE.—This appropriation account has been established pursuant to section 392 of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1231-1407), which provides that the Secretary of the Treasury is authorized and directed upon the request of the Secretary to establish one or more separate appropriation accounts into which there shall be transferred from the respective funds available for the purposes of the several Acts in connection with which the personnel or other facilities of the Agricultural Adjustment Agency are utilized, proportionate amounts estimated by the Secretary to be required by the Agricultural Adjustment Agency for administrative expenses in carrying out or co-operating in carrying out any of the provisions of the respective Acts.

The amounts transferred into this appropriation account are within the limitations established for administrative expenses under the respective appropriations from which such transfers were made.

Payments to Counties From Submarginal Land Program, Farm Tenant Act—

Twenty-five percent of the net revenues received each calendar year from the use of lands held by the Secretary under Title III of the Farm Tenant Act, approved July 22, 1937 (7 U. S. C. 1000-1006), is paid to the counties in which the land is located. Such payments to counties are made on the condition that they are used for school or road purposes, or both. When any project is located in more than one county, the distributive share to each from the proceeds of the land is proportional to its area therein (7 U. S. C. 1000-1006).

MISCELLANEOUS

Payments for Agricultural Adjustment—

NOTE.—An appropriation of \$296,185,000 was provided by the Act of February 11, 1936 (49 Stat. 1116-1117), to enable the Secretary to meet all obligations and commitments (including salaries and administrative expenses) theretofore incurred under the provisions of the Agricultural Adjustment Act, as amended, together with a sum not exceeding \$700,000, equal in amount to the unexpended balance of the funds established under sugar processing tax collections and allotted by the President under authority in section 15 (f) of the Agricultural Adjustment Act, as amended, to be spent for the benefit of agriculture in Puerto Rico and Hawaii. These sums remain available until expended. Public Law 589, 77th Congress, approved June 5, 1942, provides that no claim shall be considered or paid from this appropriation unless presented to the Secretary within 120 calendar days from the date of approval thereof, and that the unobligated balance remaining in this appropriation 180 calendar days after the date of approval of the Act of June 5, 1942, shall be covered into the surplus fund of the Treasury, except that not to exceed \$25,000 of such unobligated balance shall remain available thereafter for not more than 1 calendar year for administrative expenses.

Grain Moisture Content and Grade Determinations for Commodity Credit Corporation, Agricultural Conservation and Adjustment Administration—

NOTE.—This fund is advanced by the Commodity Credit Corporation for paying obligations incurred by the Agricultural Adjustment Agency and local agricultural conservation associations in inspecting, sampling, grading, sealing, testing, and other work incident to the storing of grain and making loans thereon under the commodity loan programs. The Agricultural Adjustment Agency has in its field offices in the various States equipment and facilities for making the moisture tests which are final factors in determining grades, and therefore loan eligibility of the harvested crop offered as collateral security for loans.

To enable the Secretary [of Agriculture] to continue to provide assistance through rural rehabilitation and grants to needy farmers in the United States, its Territories and possessions, including (1) farm debt adjustment service, and making and servicing of loans and grants under this and prior law; (2) loans; (3) grants; (4) the prosecution of Federal rural rehabilitation projects under the supervision of the Farm Security Administration on July 1, 1941; and (5) projects involving provision of water facilities; and (6) not exceeding \$1,400,000 for operation and maintenance of existing migratory labor camps; \$37,819,557, together with not to exceed \$5,000,000 of the unobligated balance of the appropriation made under this head for the fiscal year 1942], including such facilities authorized by the Act of August 28, 1937, as amended (16 U. S. C. 590r-590x, 590z-5), \$36,607,573, which sum shall be also available for necessary administrative expenses incident to the foregoing, including personal services in, the District of Columbia and elsewhere; compensation of experts (including the Administrator and not to exceed three Assistant Administrators of the Farm Security Administration) without regard to the Classification Act of 1923, as amended; purchase of lawbooks, books of reference, periodicals, and newspapers; purchase, operation, and maintenance, and exchange at the seat of government and elsewhere, of motor-propelled passenger-carrying vehicles; and printing and binding.

In making any grant payments under this Act, the Secretary [of Agriculture] is authorized to require with respect to such payments the performance of work on useful public projects, Federal and non-Federal, including work on private or public land in furtherance of the conservation of natural resources, and the provisions of the Act of February 15, 1934 (48 Stat. 351) 5 U. S. C. 796), as amended, relating to disability or death compensation, and benefits shall apply to those persons performing such work: *Provided*, That this section shall not apply to any case coming within the purview of the workmen's compensation law of any State, Territory, or possession, or in which the claimant has received or is entitled to receive similar benefits for injury or death.

For additional funds for the purpose of making rural rehabilitation loans to needy farmers, the Reconstruction Finance Corporation is authorized and directed to make advances to the Secretary [of Agriculture] upon his request in an aggregate amount of not to exceed \$97,500,000. Such advances shall be made: (1) With interest at the rate of 3 per centum per annum payable semiannually; (2) upon the security of obligations acceptable to the Corporation heretofore or hereafter acquired by the Secretary pursuant to law; (3) in amounts which shall not exceed 75 per centum of the then unpaid principal amount of the obligations securing such advances; and (4) upon such other terms and conditions, and with such maturities, as the Corporation may determine. The Secretary [of Agriculture] shall pay to the Corporation, currently as received by him, all moneys collected as payments of principal and interest on the loans made from the amounts so advanced or collected upon any obligations held by the Corporation as security for such advances, until such amounts are fully repaid. The amount of notes, debentures, bonds, or other such obligations which the Corpora-

tion is authorized and empowered to issue and to have outstanding at any one time under the provisions of law in force on the date this Act takes effect is hereby increased by an amount sufficient to carry out the provisions of this paragraph.

None of the moneys appropriated or otherwise authorized under this caption ("Loans, Grants, and Rural Rehabilitation") shall be used for (1) the purchase of land or for the carrying on of any land-purchase program; (2) for carrying on any experiment in collective farming, except for the liquidation of any such projects heretofore initiated; or (3) for making loans to any individual farmer in excess of \$2,500.

[No part of the appropriations contained in the Department of Agriculture Appropriation Act, 1943, under the heading "Loans, Grants, and Rural Rehabilitation," shall be available to pay the compensation of any person appointed in accordance with the civil-service laws] (56 Stat. 696-697).

AGRICULTURAL MARKETING ADMINISTRATION**EXPORTATION AND DOMESTIC CONSUMPTION OF AGRICULTURAL COMMODITIES****Exportation and Domestic Consumption of Agricultural Commodities, Department of Agriculture—**

To enable the Secretary [of Agriculture] to further carry out the provisions of section 32, as amended, of the Act entitled "An Act to amend the Agricultural Adjustment Act, and for other purposes", approved August 24, 1935 (7 U. S. C. 612c), and subject to all provisions of law relating to the expenditure of funds appropriated by such section, there is hereby reappropriated for the fiscal year [1943] 1944 the unobligated balances of the funds made available for the purposes of such section 32 for the fiscal [years 1941 and 1942] year 1943. Such sums shall be in addition to, and not in substitution for, other appropriations made by such section or for the purposes of such section; the appropriation made by said section 32, and shall be available during the fiscal year 1944 for administrative expenses in carrying out said section 32 and the Agricultural Marketing Agreement Act of 1937, approved June 3, 1937, as amended (7 U. S. C. 601 et seq.), in accordance with the provisions of section 392 of the Agricultural Adjustment Act of 1938, approved February 16, 1938 (7 U. S. C. 1392), as amended by the Act approved January 31, 1942 (56 Stat. 41-42), including personal services in the District of Columbia and elsewhere: Provided, That not to exceed \$175,000 of the unobligated balance of the appropriation made by section 12 (a), title I, of the Agricultural Adjustment Act, approved May 12, 1933, as amended (7 U. S. C. 612), shall be available during the fiscal year 1944 to enable the Secretary to further perform the duty imposed upon him under applicable laws to protect the interests of consumers with due regard to the maintenance of a continuous and stable supply of agricultural commodities adequate to meet consumer demand at prices fair to both producers and consumers, which sum shall be available for administrative expenses (including not to exceed \$37,200 for printing and binding) in accordance with the provisions of subsection (a) of

the aforesaid section 392, but without regard to the limitations prescribed in subsection (b) thereof (56 Stat. 694).

FEDERAL SURPLUS COMMODITIES CORPORATION

NOTE.—This Corporation was organized under the laws of Delaware as a non-profit, nonstock, membership corporation and has been continued as an agency of the United States, under the direction of the Secretary, until June 30, 1945 (Public Law 634, 77th Cong.) for the purpose of facilitating Federal programs for the disposition of surplus commodities. It is financed by loans from Federal agencies for self-liquidating surplus removal projects. The functions of this Corporation which were carried out with funds transferred to it pursuant to sec. 32 of the act approved Aug. 24, 1935 (7 U. S. C. 612c), as amended, were assumed by the Surplus Marketing Administration June 30, 1940, pursuant to Reorganization Plan No. III. The President by Executive Order 9069, issued Feb. 23, 1942, made effective the consolidation of the Surplus Marketing Administration, the Agricultural Marketing Service, the Commodity Exchange Administration, together with the Federal Surplus Commodities Corporation as an agency of the Department, into the Agricultural Marketing Administration.

Special Deposit Account, Federal Surplus Commodities Corporation (North-eastern Timber Salvage Administration), Funds Loaned by Disaster Loan Corporation—

NOTE.—This schedule reflects the administrative and program expenses of the Northeastern Timber Salvage Administration, an organization within the Federal Surplus Commodities Corporation, engaged in salvaging timber in New England damaged by the hurricane. These activities are conducted and financed pursuant to a loan agreement between the Corporation and the Disaster Loan Corporation. Responsibility for the technical operation of this program has been delegated to the Forest Service.

Farm Products Inspections, Agricultural Marketing Administration—

Under authority of the Agricultural Appropriation Act, the Secretary provides an inspection and grading service for farm products upon the application of an interested party. This service is supported in part by the appropriation "Market inspection of farm products", and in part by fees charged for the service. These fees are covered into the Treasury as a special trust fund and are appropriated and made available for the payment of refunds and expenses in connection with the work provided for under cooperative agreements (5 U. S. C. 511, 512; 7 U. S. C. 581-589; 56 Stat. 687-688).

GENERAL PROVISIONS

Sec. 2. Not to exceed 7 per centum of the foregoing amounts for the miscellaneous expenses of the work of any bureau, division, or office herein provided for shall be available interchangeably for expenditures on the objects included within the general expenses of such bureau, division, or office, but no more than 7 per centum shall be added to any one item of appropriation except in cases of extraordinary emergency (56 Stat. 698-699).

Sec. 3. During the fiscal year for which appropriations are herein made the head of any department or independent establishment of the Government requiring inspections, analyses, and tests of food and other products, within the scope of the functions of the Department of Agriculture and which that department is unable to perform within the limits of its appropriations, may, with the approval of the Secretary [of Agriculture] transfer to the Department [of Agriculture] for direct expenditure such sums as may be necessary for the performance of such work (56 Stat. 699).

Sec. 4. Within the unit limit of cost fixed by law the lump-sum appropriations herein made for the Department [of Agriculture] shall be available for the purchase of motor-propelled and horse-drawn passenger-carrying vehicles necessary in the conduct of the field work of the Department [of Agriculture] outside the District of Columbia: *Provided*, That such vehicles shall be used only for official service outside the District of Columbia, but this shall not prevent the continued use for official service of motor-trucks in the District of Columbia: [Provided further, That the

GENERAL PROVISIONS—continued

limitation on expenditures for purchase of passenger-carrying vehicles in the field service shall be interchangeable between the various bureaus and offices of the Department, to such extent as the exigencies of the service may require: *Provided further*, That appropriations contained in this Act shall be available for the maintenance, operation, and repair of motor-propelled and horse-drawn passenger-carrying vehicles: *Provided further*, That the Secretary of Agriculture may exchange motor-propelled and horse-drawn vehicles, tractors, road equipment, and boats, and parts, accessories, tires, or equipment thereof, in whole or in part payment for vehicles, tractors, road equipment, or boats, or parts, accessories, tires, or equipment of such vehicles, tractors, road equipment, or boats purchased by him: *Provided further*, That the funds available to the Agricultural Conservation and Adjustment Administration may be used *[during the fiscal year for which appropriations are herein made]* for the maintenance, repair, and operation of one passenger-carrying vehicle *[for official purposes]* in the District of Columbia (56 Stat. 699).

Sec. [2] 5. *[No part of any appropriation contained in this Act or authorized hereby to be expended shall be used to pay the compensation of any officer or employee of the Government of the United States, or of any corporation the majority of the stock of which is owned by the Government of the United States, whose post of duty is in the continental United States unless such person is a citizen of the United States: Provided, That this section shall not apply to any person in the service of the United States on the date of the approval of this Act who being eligible for citizenship had theretofore filed a declaration of intention to become a citizen or who owes allegiance to the United States: Provided further, That this section]* *Provisions of law prohibiting or restricting the employment of aliens* shall not apply to (1) *the temporary employment of translators [on a temporary basis where] when competent citizen translators are not available [and it shall not apply to the temporary];* (2) *employment in cases of emergency of persons in the field service of the Department for periods of [less] not more than sixty days:* *Provided further, That this section shall not apply to];* (3) *employment on the Emergency Rubber Project;* (4) *employment by the Rural Electrification Administration of not to exceed twenty junior*

engineer trainees who are citizens of other American republics]. This section shall not apply to citizens of the Commonwealth of the Philippines]; and (5) employment under the appropriation for the Office of Foreign Agricultural Relations (56 Stat. 702).

Sec. [3] 6. No part of any appropriation contained in this Act shall be used to pay the salary or wages of any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided*, That for the purposes hereof an affidavit shall be considered prima facie evidence that the person making the affidavit does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided further*, That such administrative or supervisory employees of the Department *[of Agriculture]* as may be designated for the purpose by the Secretary *[of Agriculture]* are hereby authorized to administer the oaths to persons making affidavits required by this section, and they shall charge no fee for so doing: *Provided further*, That any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment the salary or wages for which are paid from any appropriation contained in this Act shall be guilty of a felony and, upon conviction, shall be fined not more than \$1,000 or imprisoned for not more than one year, or both: *Provided further*, That the above penalty clause shall be in addition to, and not in substitution for, any other provisions of existing law: *Provided further*, That nothing in this section shall be construed to require an affidavit from any person employed for less than sixty days for sudden emergency work involving the loss of human life or destruction of property, and payment of salary or wages may be made to such persons from applicable appropriations for services rendered in such emergency without execution of the affidavit contemplated by this section (56 Stat. 702).

[Sec. 4. Of the total amount available under this Act for traveling expenses, the Secretary of Agriculture is authorized and directed, on or before August 1, 1942, to cover into the surplus fund of the Treasury the sum of \$1,500,000, which shall be in addition to reductions in amounts available for traveling expenses resulting from decreases in the appropriations made by this Act below the Budget estimates] (56 Stat. 702).

EXPLANATORY STATEMENT

The 12 district banks for cooperatives and the Central Bank for Cooperatives (Kansas City, Mo.) were organized to make credit available to farmers' cooperative associations on a business basis and were chartered by the Governor of the Farm Credit Administration pursuant to the provisions of the Farm Credit Act of 1933. Their charters provide for continued existence until dissolved by law.

The initial capital of the banks was subscribed by the Governor of the Farm Credit Administration from funds available in the revolving fund established under the Agricultural Marketing Act of 1929. Government-owned capital in the banks amounted to \$144,000,000 on June 30, 1942, and the capital stock and guaranty fund subscribed by borrowing cooperative associations amounted to \$4,933,300 on that date. During the fiscal year ended June 30, 1941, in accordance with the Federal budgetary program for that year, \$60,000,000 of the Government-owned capital stock in the banks was repaid to the revolving fund in the Treasury, to be available for resub-

scriptions when needed. During the fiscal year 1942, due to the need for capital funds to meet increased requirements for lending purposes, the Governor of the Farm Credit Administration subscribed to additional capital stock in the banks on behalf of the United States Government in the aggregate amount of \$59,000,000, of which all but \$4,000,000 had been paid in by June 30, 1942. It is contemplated that this unpaid subscription of \$4,000,000, together with an additional \$21,000,000 of Government capital subscribed in September 1942, will be paid in to the banks during the fiscal year 1943.

The banks for cooperatives obtain a portion of their funds for lending purposes by discounting certain of their paper with the Federal intermediate credit banks. The Central Bank for Cooperatives may issue debentures but has never availed itself of the authority.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Commodity Credit Corporation, created under the laws of the State of Delaware pursuant to Executive Order No. 6340, dated October 16, 1933, was organized primarily to make loans to producers to finance the carrying and orderly marketing of agricultural commodities. The Corporation was made a part of the Department of Agriculture on July 1, 1939, pursuant to Reorganization Plan No. 1 and the Reorganization Act of 1939. The act of July 1, 1941, continued the Corporation as an agency of the United States to June 30, 1943, or such earlier date as may be determined by the President. Section 302 of the Agricultural Adjustment Act of 1938, as amended and supplemented by the act of May 26, 1941, Public Law 74, Seventy-seventh Congress, as amended by the act of December 26, 1941, Public Law 374, directed the Corporation to make available loans, at the rate of 85 percent of the parity price for the commodity as of the beginning of the marketing year, on the 1941, 1942, 1943, 1944, 1945, and 1946 crops of the commodities cotton, corn, wheat, rice, tobacco, and peanuts for which producers have not disapproved marketing quotas. Section 302 of the Agricultural Adjustment Act of 1938 also authorizes Commodity Credit Corporation, upon recommendation of the Secretary of Agriculture and approval of the President, to make loans on any agricultural commodity. The Agricultural Adjustment Act of 1938 was further amended and supplemented by the act of October 2, 1942, Public Law 729, Seventy-seventh Congress, which establishes the loan rate at 90 percent of the parity price of the commodity at the beginning of the marketing year, except that the President may fix the loan rate for any commodity at not less than 85 percent if he determines that such loan rate is necessary to prevent an increase in

the cost of feed for livestock and poultry and aid in the effective prosecution of the war. This act also provides that loans are to be made available until the end of the 2-year period beginning with the first day of January following a declaration of the termination of hostilities. The increase shown in the volume of business for Commodity Credit Corporation arises partly from higher loan rates and purchase prices required by legislation, and partly from activities designed to support the war effort. These include price supports on crops for which expansion of production is requested by the Secretary of Agriculture, temporary financing of purchases for lend-lease and other war uses, and purchases and imports of needed agricultural commodities from countries friendly to the United States.

The Corporation has a capital stock of \$100,000,000, all of which is held by the United States, and it is authorized, with the approval of the Secretary of the Treasury, to have outstanding at any one time obligations guaranteed by the United States in an aggregate amount of \$2,650,000,000.

The Secretary of the Treasury is required to make an appraisal of all assets and liabilities of the Corporation as of March 31 in each year for the purpose of determining its net worth. If the net worth of the Corporation is determined to be less than \$100,000,000, the Secretary of the Treasury, subject to the appropriation of funds therefor, is required to restore such capital impairment. If the net worth exceeds \$100,000,000, such excess is required to be deposited by the Corporation in the Treasury of the United States as "Miscellaneous receipts."

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

Disaster Loan Corporation was organized February 15, 1937, in accordance with the act approved February 11, 1937. The Corporation has succession until dissolved by act of Congress. The Reconstruction Finance Corporation subscribed and paid for the original capital of \$20,000,000. The act approved March 4, 1939, increased the capitalization of the Corporation to \$40,000,000, which was subscribed for by Reconstruction Finance Corporation. The Treasury has reimbursed Reconstruc-

tion Finance Corporation for, and now owns, all the paid-in capital, which at present amounts to \$24,000,000.

In accordance with the act approved March 4, 1939, the Corporation is authorized to make loans as it may determine to be necessary or appropriate because of floods or other catastrophes occurring during the period between January 1, 1936, and January 22, 1947.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Crop Insurance Corporation was organized under the act of February 16, 1938, for the purpose of promoting the national welfare by alleviating the economic distress caused by wheat crop failures due to drought and other causes, by maintaining the purchasing power of farmers, and by providing for stable supplies of wheat for domestic consumption and the orderly flow thereof in interstate commerce.

Public Law 118, Seventy-seventh Congress, approved June 21, 1941, authorized the Federal Crop Insurance Corporation to insure producers of cotton, commencing with the cotton crop planted for harvest in 1942. Also, the act authorized the Corporation to accept in payment of premiums, notes payable in the commodity insured, or the cash equivalent, and to purchase for insurance reserve purposes the quantity of the commodity represented by any such notes not paid at maturity. The

premium notes for insuring the wheat and cotton crop will mature approximately at the time of harvest; the maturity dates range in the case of wheat from July to August, and in the case of cotton from August to October.

The Federal Crop Insurance Act provided that the Corporation should have an authorized capital stock of \$100,000,000 to be subscribed by the United States of America. As of June 30, 1942, \$40,000,000 had been made available to the Secretary of the Treasury for purchase of capital stock of the Corporation, and of this amount \$20,000,000 had been requisitioned. The additional \$15,000,000 requisitioned in the 1943 fiscal year is being used to finance the purchase of wheat and cotton and the payment of indemnities prior to the collection of the outstanding insurance notes.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Farm Mortgage Corporation was created under the act approved January 31, 1934 (12 U. S. C. 1016-1020 (h)), to aid in financing the lending operations of the Federal land banks and the Land Bank Commissioner.

The Corporation, which is wholly owned by the United States, had paid-in capital of \$100,000,000 as of June 30, 1942, a repayment to the Treasury in the amount of \$100,000,000 having been made in May 1941. This retirement of stock was made in accordance with the President's

Budget Message of January 3, 1940, and the provisions of an act approved June 25, 1940, and the proceeds are being held in the Treasury of the United States as a fund available for additional capital subscriptions, if necessary.

The Corporation is authorized to issue and have outstanding at any one time a total of not more than \$2,000,000,000 of bonds, which are fully and unconditionally guaranteed by the United States Government.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Agricultural Credits Act of 1923 (title II of the Federal Farm Loan Act) provided for the establishment of 12 Federal intermediate credit banks. The 12 banks were chartered by the Federal Farm Loan Board during 1923, their term of existence being unlimited.

The authority for supervision of the various Federal intermediate credit banks was transferred to the Farm Credit Administration on May 27, 1933, in conformity with the provisions of Executive Order No. 6084 of March 27, 1933.

The original capital stock of the Federal intermediate credit banks in the amount of \$5,000,000 each was subscribed and paid for by the Secretary of the Treasury on behalf of the United States. By an act approved January 31, 1934, an additional sum of \$40,000,000 was provided, to be allocated to the capital stock and paid-in surplus of any banks. Late in 1940, in accordance with the Federal budgetary program for the fiscal year 1941, the banks returned the \$40,000,000 to the revolving fund in the Treasury, the proceeds of such repayments being held as a fund available for resubscription, if necessary. Thus, on June 30, 1942, the total capital in the banks amounted to \$60,000,000.

The Federal intermediate credit banks have authority, subject to the approval of the Farm Credit Administration, to borrow money from any source and to issue and sell collateral trust debentures or other similar obligations subject to the general limitation that the aggregate amount of such outstanding debentures and similar obligations issued individually by any bank, together with the amount of consolidated debentures issued for its benefit and account, shall not exceed ten times the surplus and paid-in capital of such bank.

The Federal intermediate credit banks pay annually to the United States Treasury a franchise tax equivalent to 25 percent of the amount of earnings remaining after absorption of losses and provision for estimated losses, the elimination of any impairment of paid-in capital, and the creation of necessary reserves.

The principal function of the Federal intermediate credit banks is to supply funds by way of discounts and loans to lending institutions for short- and intermediate-term agricultural loans.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

Title I of the Farm Credit Act of 1933 authorized and directed the Governor of the Farm Credit Administration to organize and charter 12 production credit corporations, one to be established in each city in which a Federal land bank was located.

All of the capital in the production credit corporations is owned by the United States Government, the initial subscription being \$120,000,000. During the early part of the fiscal year ended June 30, 1941, in accordance with the Federal budgetary program for that year, the production credit corporations returned \$15,000,000 of this capital to a revolving fund in the Treasury, to be available for resubscription when needed. During the fiscal year 1942, it became necessary to subscribe for additional capital funds and the paid-in capital of the corporations was

increased by \$15,000,000 in September 1941. Thus, paid-in capital of the corporations totaled \$120,000,000 on June 30, 1942.

The principal function of the production credit corporations is to organize, provide capital for, and supervise local production credit associations which make short-term agricultural loans to their members. As of June 30, 1942, the 12 corporations were supervising the operations of 537 production credit associations, serving farmers in every rural county in the United States, and owned about 79 percent of the total outstanding stock of the associations.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

By authority granted in section 201 (e) of the Emergency Relief and Construction Act of 1932, approved July 21, 1932, the Reconstruction Finance Corporation created 12 regional agricultural credit corporations to make short-term loans direct to farmers and stockmen in the United States.

The stock of these corporations was subscribed and paid for by the Reconstruction Finance Corporation out of the unexpended balance of the amounts allocated and made available to the Secretary of Agriculture under section 2 of the Reconstruction Finance Corporation acts. All of the stock is now held by the Secretary of the Treasury for and on behalf of the United States. Of the total original capital of \$44,500,000, the corporations have returned to a revolving fund set up under section 84 of the Farm Credit Act of 1933 the sum of \$39,500,000, leaving outstanding stock in the amount of \$5,000,000.

On May 27, 1933, the functions of the Reconstruction Finance Corporation relating to the affairs of the regional agricultural credit corporations were transferred to the Farm Credit Administration.

Since May 1, 1934, the regional agricultural credit corporations have been in process of orderly liquidation, the

short-term credit needs of agriculture being provided for by other permanent organizations administered by the Farm Credit Administration. In accordance with authority granted by the Farm Credit Act of 1937, the Farm Credit Administration has effected the consolidation or merger of various of the corporations so that on June 30, 1942, there were only three in existence. In addition, there was a branch office at Wenatchee, Wash., which was established late in 1940 for the purpose of extending credit to apple growers in that area. The severe economic distress faced by the apple industry in the Pacific Northwest as the result of the closing down of export markets and other factors had created a most urgent need for credit which it was believed could best be met by the regional agricultural credit corporations. It may be necessary to place the corporations on an active basis in the near future in order to meet credit needs in certain agricultural operations which cannot be adequately taken care of by other governmental credit agencies, and which operations are necessary for the production of essential agricultural products.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.
